# The authortitle-tcomp style

This style essentially combines authortitle-terse and authortitle-comp. It will implicitly enable the sortcites package option at load time.

## Additional package options

#### The dashed option

By default, this style replaces recurrent authors/editors in the bibliography by a dash so that items by the same author or editor are visually grouped. This feature is controlled by the package option dashed. Setting dashed=false in the preamble will disable this feature. The default setting is dashed=true.

### \cite examples

Averroes Aristotle, *Physics* Aristotle, *Rhetoric* 

## Multiple citations
